You are requested to take the same on your record.

Thanking you,

Yours faithfully,
For INOX India Limited

Jaymeen Patel
Company Secretary

INOX India's Beverage Kegs manufacturing at Savli Plant receives approvals from global brewery majors – Heineken and ABInBev

Milestone strengthens INOX India's position as a strategic global partner for sustainable and quality beverage keg solutions

Vadodara/Mumbai, 27th May 2025: INOX India Ltd (INOXCVA), one of the world's leading cryogenic technology solution providers and kegs manufacturers, today announced that it has received approvals from two of the world's largest brewery brands – **Heineken** and **ABInBev** - for its stainless-steel beverage kegs manufacturing at its Savli Plant in Gujarat. This milestone, coming a few Quarters after the Company's entry into the keg manufacturing space, in September 2023, marks a significant endorsement of INOXCVA's capabilities in quality, scale, and global compliance, as well as its unmatched expertise of more than 3 decades of handling stainless steel and welding know-how.

INOXCVA's success in securing these approvals is a testament to a newly established plant with significant built-in capacity, and adherence to globally recognized quality standards, including ISO 9001, ISO 14001 and FSSC 22000. The audit processes were rigorous, requiring several weeks of preparation and entailing detailed on-ground evaluations across manufacturing protocols, cleanliness, staff expertise, traceability, QA systems, and testing infrastructure. The approvals have now paved the way for commercial engagements with these global beverage leaders. Further to these approvals, INOXCVA aims to emerge as a preferred supplier based on its competitive pricing & proximity to key markets, duly complemented by a strong intent towards building long-term relationships.

Commenting on the achievement, **Deepak Acharya, CEO – INOX India Ltd**, said, *"These approvals from two of the world's leading breweries mark a defining moment in our journey into the beverage keg space. It validates our belief in our manufacturing prowess and reinforces our position as a credible, high-quality, and future-ready partner for the global beverage industry. We are confident that this milestone will pave the way for deeper collaborations and wider global market access in the years ahead. Investments have also been made in tooling and customization capabilities such as embossing and engraving to meet the branding requirements of global customers. With such wherewithal, we aim to strengthen our capabilities and take them notches above, while ensuring that specific customer needs across the globe are addressed. We are confident of receiving approvals from more brewing majors in the due course of time"*

INOXCVA offers a wide range of stainless-steel beverage kegs in EURO, DIN, SLIM, and USA-standard (BBL) formats, from 10L to 60L, suitable for beer, wine, cider, juice, kombucha, coffee, and more. Options include stackable/non-stackable designs, various spears and necks, enhanced ring thickness, and 100% leak testing. The sustainable PSP Kegs (15L–20L), made with recycled stainless steel and polypropylene, are lightweight, stackable, and customizable. Cornelius (Corny) Kegs, ideal for homebrewing, come in 2.5–5-gallon variants with hygiene certification and design flexibility. Logo embossing, silk-printing, and RFID tagging are also available. The kegs manufactured by INOXCVA are fully compliant with international safety and

environmental regulations. Made from high-grade stainless steel (AISI 304/EN 1.4301) sourced from India's top steel manufacturers, and treated through certified pickling and passivation processes, the kegs meet EU regulations, US FDA requirements, and other regional standards applicable to food and beverage packaging equipment.

About INOX India Ltd

INOX India Limited (INOXCVA) is one of the largest manufacturers of Cryogenic Storage, Re-gas and Distribution Systems for LNG, Industrial Gases and Cryo-Scientific applications with operations in India, Brazil & Europe. The Company has an extensive user base, spread across more than 100 countries and is serviced by a network of after-sales support associates in 25 countries.
